REVEW OF 1917.

12,000,000 men and \$100,000,000,000, mains as these of Nelson. according to war statisticions and if the war continues until August the Little light was thrown, upon the lory. A tightening up of the and disabled. A large percentage of the cost of the war both in money. killed and disabled will fall upon the

The destruction of property and life, the removal from industrial curcles of so many million men capachelp but make a great impression upon the economic, social and and ritual life of the country. The detruction of cities, factories, railroads and devastation of great areas of country in the war zones will require many years in restore to natural, or ante-bellum conditions

The United States has undergone ary. The enforcement of draft, the appointment of food, coal and railroad dictators are digressions from the making his tenar the La Sellean disnormal trend of affairs and such that appeared could only be put through in times of war. The appointment of dictators has stopped profiteering, but has not reduced prices, and the assumption of control of the railroads has already stabilized the stock market and stopned the growing loss of confidence in the ability of the raffronds to handle the commerce of the country.

The United States has developed from a creditor nation to an international banker. All American securities abroad have raturned to this creased to over \$3,000,000,000. We having been no very have loaned to the allies \$800,000,000 and our resources have hardly been touched. Unless the final humiliation of the Kaiser is curned over to the United States and our wealth and man power is tremendously reduced this country will be in better condition than any other to meet conditions following in the wake of the

The last year has also seen the States advance to second position as a maritime power. Dur'ng the year 1,000,000 tons have been added and another 2,5et,000 are to be built in 1918. It looks like we will soon oc-cupy the place formerly occupied by

During the year the United States has seen the development of a great chemical industry in which ever \$320,000,000 has been invested. Thus During the year the United States means a big loss to Cermany he have tofore all dye stuffs and meny or car chemical preparations came from that

The war has shown the great poten tial resources of this country. It has awakened the great American giant and whether the war closed this year or next, the nations of Europe will look up to the United State with more respect then they even did in the tast. When judgment has been a passed upon those responsible for this great holocaust of murder and hate let us trust that our escurcheon will be as clear and untarnished us if is at the presentatime,
